Skills

HTML5
JavaScript

CSS3
NodeJS

AngularJS
PostgreSQL

Github
ReactJS

Gulp
Sass

Projects

Language Tutor

Current

Tech: ReactJS, JavaScript, Firebase

Language Tutor is a learning platform designed to help teach the Igbo language of the South African Igbo tribe. Working in a group, we built a user dashboard which features video chat and text chat. We use Firebase for database and authentication.

Current Cuts Vinyl

Current

Tech: AngularJS, JavaScript, Sass, Gulp, NodeJS, PostgreSQL

My goal was to create an ecommerce website to sell vinyl decals (stickers) that I make. The biggest challenge was building a shopping cart from scratch. I used Facebook OAuth and created a page with admin privileges. I plan on using this as a production website once the final touches are added.

Hosers and Hoseheads

Jan 2018

Tech: ReactJS, JavaScript, Firebase

Hosers and Hoseheads is a React web app created for a fantasy hockey league. I was responsible for programming the CMS platform for the client to post weekly recaps. The app is currently using Firebase as its database and is displaying the weekly recaps in a meaningful way to the user.

Smart Table

Jan 2017

Tech: ReactJS, JavaScript, Sass, NodeJS, PostgreSQL

As a group, our goal was to create a restaurant app to eliminate the need of ordering through wait staff. We decided to learn the React library to accomplish this. My main focus was the landing page, creating user logins and encrypting/hashing passwords.

Black Jack Card Game

Nov 2016

Tech: AngularJS, JavaScript, Sass, Gulp

I wanted to build a basic Black Jack card game - I used the deckofcardsapi.com API to draw cards from, and created the dealer logic all using AngularJS. I also used keyframes for the card-sliding animations.

Experience

Prism Graphics – South Park, WA - Installer

Sept 2017 – Present

- Install vinyl graphics on boats, vehicles, and storefront windows.
- Meet with customers to discuss boat, vehicle, or storefront design ideas.
- Prioritize installs based on customer approval and weather.
- Assist shop staff with various tasks as needed.

Education

DevMountain – Provo, UT

Oct 2016 – Feb

2017 Learned Full-Stack Development and completed 3 projects
